PROSPECTUS WEEKLY NATIONAL REPUBLICAN. The undersigned commenced, in the mouth of December, 1860, the publication, in this city, of a weekly newspaper, called the National Re-

It is printed on a large sheet, twenty-seven by forty-two inches, and is furnished at the low prices stated below. It contains all the original matter of the Daily National Republican, with the exception of local news not interesting to country sub-

It will give full reports of the proceedings of Congress, and of the other Departments of the National Government. It contains all the news of the day, foreign

and domestic, markets, &c., &c., as well as an original correspondence from all parts of the country. The miscellaneous department will receive special attention, and, in all respects, the effort will be made to establish the character of the National Republican as a Family Newspaper. Washington being now the central point of

the current military operations, great attention will be paid to furnishing the readers of the National Republican with full, and especially with accurate, accounts of the progress of the war for the Union.

In politics, the paper is Republican, sustaining the Administration of Mr. Lincoln. There is no other Republican paper in the District of Columbia, or in the vicinity of it, and it is believed that recent events have opened to such a paper an important sphere of useful effort. The time has come, when the actual administration of the Government upon Repub-lican principles will explode the misrepresen-

tations which have made those principles so distateful to the South. But it is not only here, and in this vicinity, that the projectors of the National Republican hope to make it useful. To the whole country they offer a journal which will discuss national politics from a national stand-point, and which will never be swerved from patriotic duty by any overpowering pressure of local interest.
